

**Amendments to the Specification**

***Please replace the title with the following amended title:***

[[LST]] LSI TEST PROGRAM PROTECTION METHOD AND LSI TEST  
METHOD

***Please replace the paragraph beginning on page 7, line 3 with the following amended paragraph:***

The compiler 14 creates the object file 15 by using the distribution file 13 and the secondary key 13a. In this case, the compiler 14 can differentiate the source file 11 and the distribution file 13 from each other using a file extension and so can translate the source file 11 directly to thereby create an object file.
